"Assisted" and "Enriched Living" is not governed by the Homes for Special Care Act. The RTA is silent as to whether it covers those 2 types of housing.

The Residential Tenancies Act might apply. It a says that it "includes any house, dwelling, mobile home, apartment, flat, tenement or similar place that is occupied or may be occupied by an individual as a residence" BUT it does not "does not include a room in a boarding house or lodging house".

It is thus unclear.

"Basic Care" is: accommodation and meals, facilities services, necessary nursing services, personal services, therapeutic and special diets as required, routing and emergency drug and medicine, routine dressings, life enrichment services (NHR, s. 2)
